Section 1: Committee Updates

This section is filled out by the chief officer from each of the Alliance LARP committees.

Rules

The Rules committee has compiled and started reviewing the feedback from the 2.1 alpha packet. Time was spent reworking the ritual and crafting systems, and reviewing an owner submission on dual long weapons.

Technical

The Technical committee has added High Magic memorization into the 2.1 CMA build, and continues to get it ready for deployment for playtests. The team is currently targeting March 15th for completion.

The Technical committee is recruiting! If you have experience with Ruby/Ruby on Rails and want to get involved, email Albert at dragonstamps@alliancelarp.com.

Diversity

This month, the Diversity committee completed a medical spirit forge policy, and has identified necessary changes in the current Dryad, Dark Elf, and Stone Elf lineage packets. The first half of the lineage packet re-writes are expected to be finished by March 15th.

Publicity

The Publicity committee has worked on documents for planning promotional tours and a 2.0 cheat sheet intended for new players.

Design

The Design team expects to finish the current round of ritual development in late March. The team is also looking ahead to future projects beyond 2022. Plans are also being made to start producing content for YouTube.

Documentation

The Documentation committee has almost completed their review of the 2.0 rulebook and are currently targeting March 15th as the submission date to the Alliance GM. At that time, they will
